EXPERTS WITH PASSION

# BERNER HAND LAMPS

ONE CHARGING SYSTEM FOR ALL LED HAND LAMPS
WITH MICRO USB CONNECTION

# Slimlite Micro USB

**Product Detail**
- Specially designed optical lens gives a 90° beam angle.
- Extremely narrow design for hard to reach areas.
- Micro USB charging socket allows convenient charging with all chargers that have Micro USB connector e.g. mobile phone chargers, computers etc.

**Technical Data**
Running time: 2.5 hours.
Charging time: 2.5 hours (for charging current 500 mA).
Brightness at 0.5m: 450 lux.
Protection: IP20.
Battery: Li-Ion 3.7V DC, 1200 mA.
Light source: 0.5W SMD LED (10pcs).
Weight: 100g.
Length: 262mm.
Width: 31mm.
Thickness: 20mm.

# Pen Light LED 7+1 Micro USB

**Product Detail**
- Practical and handy LED light.
- 7 bright LED's of the latest LED technology.
- Integrated belt clip and magnet.

**Technical Data**
Running time: 3.5 hours.
Charging time: 3 hours.
Brightness at 0.5m: 100 lux.
Protection: IP20.
Battery: Li-Ion 3.7 V DC, 750 mA.
Weight: 57g.
Length: 170mm.
Width: 22mm.
Thickness: 25mm.

## Pocket Delux Bright Micro USB

**Product Detail**
- Latest LED strip technology.
- A larger area is illuminated, than with conventional LED lighting.
- Special optical lens for soft, bright and diffused light (90°).
- Foldable, can rotate 360° and is extremely flexible.
- Powerful magnet built-in to the lamp base.
- Integrated belt clip.
- Equipped with Micro-USB charging jack.

**Technical Data**
Running time: 3 hours.
Charging time: 4 hours.
Brightness at 0.5m: 400 lux.
Protection: IP20.
Battery: Li-Ion 3.7V DC, 1200 mA.
Weight: 190g.
Length: 130mm.
Width: 66mm.

## Pocket Delux Sun Micro USB

**Product Detail**
- Extremely flexible: 360° rotation.
- In the base of the lamp is built-in a sound and powerful magnet, so that the lamp can be placed anywhere.
- Two high-performance LEDs add approximately 40% more light than conventional LED's.
- Illuminates to create a large work area.
- Integrated belt clip.
- Equipped with micro-USB charging jack.

**Technical Data**
Running time: 4 hours.
Charging time: 4 hours.
Brightness at 0.5m: 2000 lux.
Luminous flux: 150 lumens.
Protection: IP20.
Number of LEDs: 2.
Battery: Li-Ion 3.7V DC, 1200 mA.
Weight: 177g.
Length: 130mm.
Width: 66mm.

# Ergo-Combilight Micro USB

## Product Detail
- Ergonomically designed
- Built-in laser pointer.
- Laser pointer and lamp can be switched on simultaneously.
- LEDs have a long life span, reducing operating and maintenance cost.
- Equipped with Micro-USB charging jack.

## Technical Data
Running time: 7 hours.
Charging time: 6 hours.
Brightness at 0.5m: 14000 lux.
Luminous flux: 120 Lumen.
Protection: IP65.
Battery: Li-Ion 3.7V DC, 2100 mA.
Weight: 160 grams.
Length: 160mm.
Width: 55mm.
Thickness: 39mm.

| Art. No. | Description | Qty |
|---|---|---|
| B200558 | Ergo-Combilight Micro USB | 1 |

# Broadfix LED Cordless Micro USB

## Product Detail
- Latest LED technology.
- The special tube creates a soft, bright and wide light.
- 180° wide beam creates a large illuminated work area.
- No heat production and very low power consumption.
- Integrated spotlight for focused illumination.
- Can be started from cold (down to -40°c).
- Equipped with Micro-USB charging jack.

## Technical Data
Running time: 3 hours.
Charging time: 3.5 hours.
Brightness at 0.5m: 500 lux.
Protection: IP65.
Battery: Li-Ion 3.7 V DC, 3300 mA.
Weight: 318g.
Length: 500mm.
Width: 50mm.

| Art. No. | Description | Qty |
|---|---|---|
| B206955 | Broadfix LED Cordless Micro USB | 1 |

# Pocket LUX Bright Micro USB

**Product Detail**
- Newest LED technology.
- Specially designed optical lens for soft and bright light with a 90° illumination.
- Greater illumination of the workplace compared with previous LED technology.
- 1W high power LED spot light supply. 600 Lux at 0.5m light output.
- 180° bendable for flexible application.
- Strong magnets on bottom and back allow for flexible fixing position.
- Two hooks for additional fixing possibilities.
- Micro USB charging socket.
- Intelligent load broad, recognises the wrong charger.

**Technical Data**
Running time: 3 hours.
Spot Runtime: 12 hours.
Charging time: 4 hours.
Brightness at 0.5m: 450 lux.
Protection: IP20.
Battery: Li-Ion 3.7V DC, 2100 mA.
Weight: 294g.
Length: 250mm.
