

# Bourdon tube pressure gauge, stainless steel

## Compact version, NS 40 [1 ½"], 50 [2"] and 63 [2 ½"]

### Model 131.11

WIKA data sheet PM 01.05

For further approvals,  
see page 5

## Applications

- For gaseous and liquid aggressive media that are not highly viscous or crystallising, also in aggressive environments
- Machine building and general plant construction
- Indication of failure alarm on gas cylinders
- CDA (Clean Dry Air) applications

## Special features

- Case and wetted parts from stainless steel
- Version per EN 837-1 or ASME B40.100
- Cost-effective and reliable
- Scale ranges from 0 ... 1 to 0 ... 1,000 bar [0 ... 15 to 0 ... 15,000 psi]

**Bourdon tube pressure gauge model 131.11.050 with dual scale bar/psi**

## Description

The compact model 131.11 Bourdon tube pressure gauge is constructed with a case and wetted parts from stainless steel.

The modular design enables a multitude of combinations of process connections, nominal sizes and scale ranges. Due to this high variance, the instrument is suitable for use in a wide range of applications within industry.

The instrument is frequently used as a failure alarm indicator on gas cylinders. With its compact design and moderate purchase costs, the pressure gauge also qualifies for machine-building and plant-construction applications.

Due to the use of high-quality stainless steel materials and its robust design, the instrument is suitable for liquid and gaseous media, also in aggressive environments.

For mounting in control panels, the pressure gauges can be fitted with a surface mounting flange or with a triangular profile ring and mounting bracket.

## Specifications

Basic information		
Standard	<div><div></div> EN 837-1</div> <div><div></div> ASME B40.100</div>	
	For information on the “Selection, installation, handling and operation of pressure gauges”, see technical information IN 00.05.	
Special design feature	<div><div></div> Oil- and grease-free</div> <div><div></div> For oxygen, oil- and grease-free <sup>1)</sup></div> <div><div></div> Silicone-free</div> <div><div></div> Version for ammonia plants</div> <div>With temperature scale for refrigerant R 717 (NH3) in °C</div> <div>Scale range: -1 ... 0 ... 15 bar or -1 ... 0 ... 26 bar</div>	
Nominal size (NS)	<div><div></div> Ø 40 mm [1 ½"]</div> <div><div></div> Ø 50 mm [2"]</div> <div><div></div> Ø 63 mm [2 ½"]</div>
