

June 18th 2014: PRODUCT STATUS NOTIFICATION – UtiliTrak® Wheel Plate Assembly Guide Wheels

Bishop-Wisecarver Corporation is informing you of the obsolescence and replacement of several assemblies in the UtiliTrak® product line. These life cycle changes are the result of a change in the supply chain of the studed wheel components used to make up the wheel plate assemblies.

BWC is transitioning the DualVee® studed guide wheel product offering away from the SWI series integral studed wheels which will be replaced by the SWS series swaged studed wheels. Please see the Product Status Notification document dated May 3, 2013 for specific SWI to SWS transition information. UtiliTrak® assemblies use the affected DualVee® components.

Upon the depletion of our DualVee® SWI series integral studed wheel inventory the following UtiliTrak® product stock codes will be discontinued or otherwise obsolete:

BWC Product Line	Size	Obsolete Stock Code	Product Description
UtiliTrak®	Size 2	UT2WPA	Wheel Plate Assembly, Size 2, Steel Wheel, 3-Wheel, Shielded Integrated Wheel
		UT2WPAX	Wheel Plate Assembly, Size 2, Steel Wheel, 3-Wheel, Sealed Integrated Wheel
